

Comfortably CA

Proudly offering peace of mind

**ENJOY THE BENEFITS OF
EFFICIENT HEATING AND COOLING**

Choosing the right heating and cooling solution for your home is a big decision. When you work with a Comfortably CA participating contractor, you can be confident knowing you're getting a great deal and the full benefits of a high-efficiency system.

Year-round comfort

Your contractor specializes in reliable solutions that deliver clean, consistent heat in the winter and affordable cooling in the summer.

Healthy indoor air quality

Many new high-efficiency systems include filters that prevent dust, pollen and pollutants from entering. And with the extra comfort, you can keep the windows closed if the air outside is poor.

Lower energy costs

We focus on heating and cooling equipment that's far more efficient than older technologies and less efficient options. So you can feel better about your home and your utility bills.

Confidence

Enjoy the worry-free performance of a dependable system that can bring you years of comfort, energy savings and low maintenance costs.

High-efficiency solutions include:

Air conditioners

Heat pumps

Furnaces

Wall furnaces

Boilers

Smart thermostats

About Comfortably CA

We are a statewide program that supports participating contractors with specialized training on energy-efficient HVAC solutions. You can count on your contractor's expertise and service.
